

Club Med

Opportunity

Club Med specializes in all-inclusive holidays at over 60 resorts around the world. Club Med relied on spreadsheets for scheduling agents and forecasting, which was extremely time-consuming and not reliable.

The company used a home base program for their contact center agents who wanted to see their schedules, meaning schedules were printed and distributed every week to approximately 100 agents in three different sites (Portugal, Canada, and the United States), including their sales, service, and back office teams. It could take up to three weeks to complete their schedules.

Solution

As with many contact centers using spreadsheets, Club Med's primary objective was to implement software that would make scheduling and forecasting easier.

Jesse Holder started as a Workforce Management Specialist two years ago. Verint Monet Workforce Management was implemented shortly before he started. He found the solution easy to use and navigate and started learning it by himself before his official training.

Verint® Monet Workforce Management™

Industry

Tourism

Region

EMEA

Results

- Abandon rate dropped from 28 to five percent.
- Service levels improved by six percent.
- Conversion rates improved.

After having Verint Monet, we can never go back. It's a very intuitive solution to use, especially the way the exports are done. It makes everything easier.

– Jesse Holder, Workforce Manager Specialist, Club Med

Benefits

With Verint Monet Workforce Management in place, Club Med significantly improved its abandon rate. When Jesse Holder took over in 2016, the abandon rate was 28 percent; with the help of Verint Monet, it dropped to five percent, thus meeting Club Med's established goal. Since then, the abandon rate has been maintained at this number.

Service levels improved by six percent, with an improved conversion rate. Since the conversion rate increased, more calls led to a transaction.

Satisfied with the results and efficiency obtained by Jesse Holder and the Verint Monet Workforce Management solution, Club Med has expanded the use of the solution into its Brazilian office.
